

CAUDAL 45'

CAUDAL
TRIMARANS

FRENCH EXCELLENCE IN LUXURY CRUISING

Caudal Trimarans develops and markets high-end long-distance cruising trimarans, the result of 25 years of experience in coastal and offshore sailing.

Our boats are designed to combine the demands of long voyages with comfort for crews from all walks of life.

They combine the seaworthiness of a monohull with the generous comfort of a catamaran.

AN ADVANTAGEOUS STRUCTURE

The trimaran's architecture, with the mast's forces transferred to the central hull, reduces wear and tear on the structure, ensuring a long service life and reduced maintenance.

ALUMINIUM IS A ROBUST MATERIAL

Aluminium ensures safety at sea, weight control and impact resistance. Environmentally friendly and recyclable, it requires no resin and guarantees superior longevity compared to wooden or composite hulls, with preserved resale value.

TECHNIQUES AND COMFORT ON BOARD

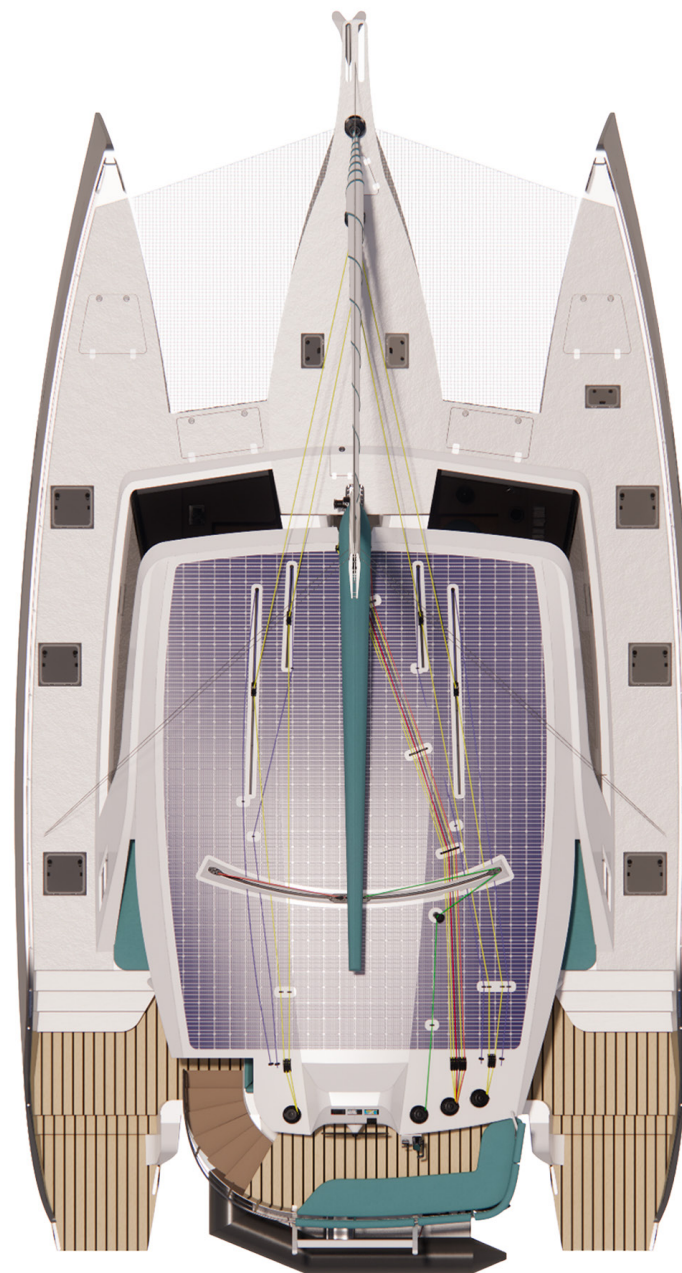

Central helm station, efficient deck layout, smooth manoeuvring, uncluttered cockpit and spacious living areas: these are the defining features of the three Caudal models.

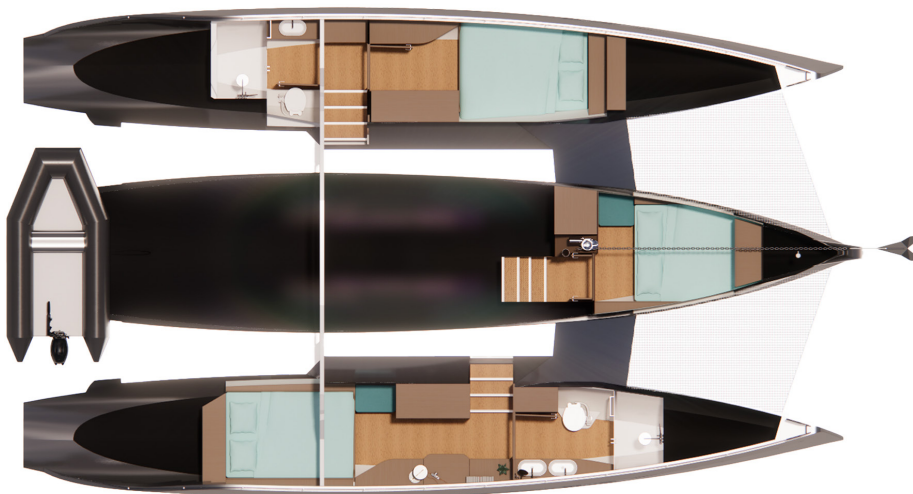

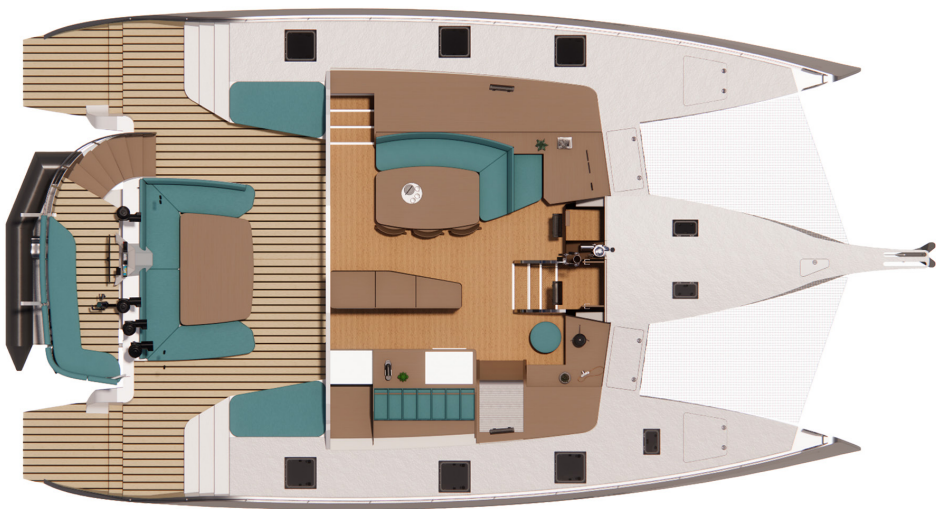

CAUDAL 45'

The Caudal 45' is designed for discerning owners looking for a refined, modern and high-performance trimaran. Its sleek design reflects the brand's aesthetic identity with balanced lines.

The anchorage brought back to the foot of the mast ensures a more harmonious weight distribution, improving both performance and comfort when sailing. The raised helm station, characteristic of the range, offers a panoramic view and precise control of the boat.

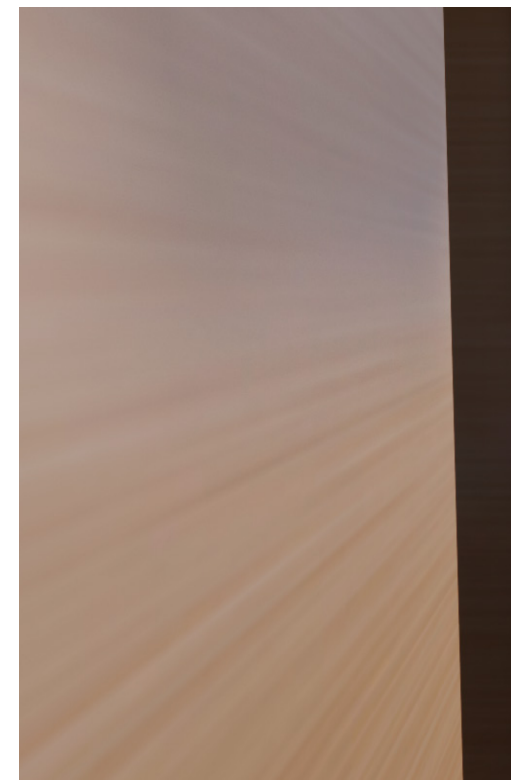

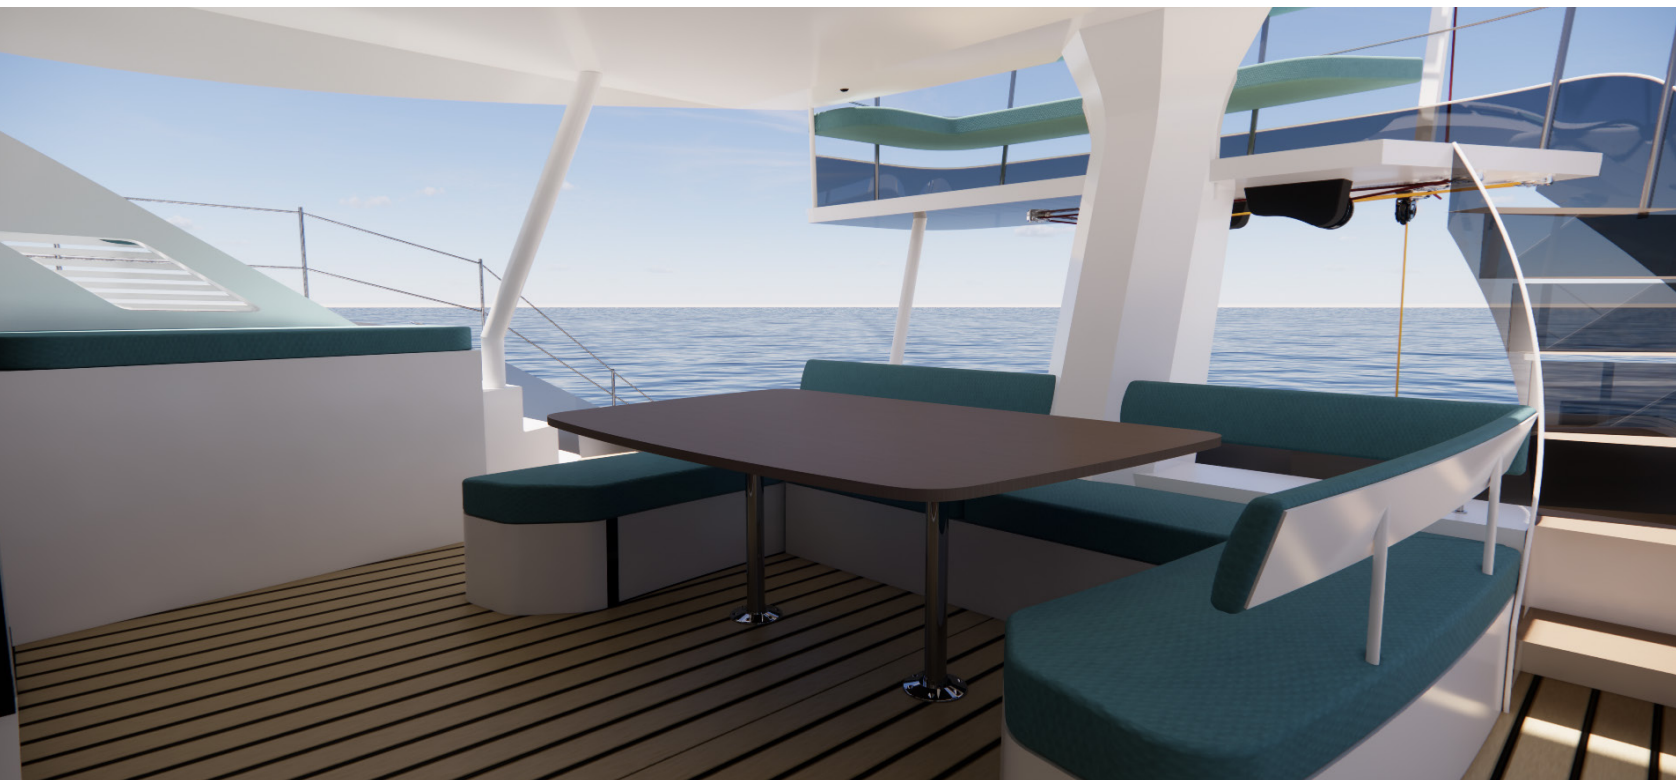

On board, the Caudal 45' offers three cabins, including a genuine owner's suite occupying an entire float, ensuring privacy and well-being. The open-plan kitchen and living area encourage moments of sharing, while the excellent visibility to the outside creates a constant connection with the sea.

SPECIFICATIONS

Overall length	14.47 m
Waterline length	13.63 m
Overall width	7.80 m
Light displacement	16.9 t
Sail area	141.5 m ²
Living area	43 m ²
Draught	1.73 m
Engine power	55 hp
Fresh water tank	500 l
Fuel tank	500 l

CUSTOMIZATION

The Caudal 45' adapts to your desires, combining aesthetics, comfort, and performance.

You can customize:

List of customizable options:

- The rigging
- The secondary electric propulsion systems
- The air conditioning
- The wood species
- The upholstery
- The solar panels
- The watermaker
