

CAUDAL 53'

CAUDAL
TRIMARANS

FRENCH EXCELLENCE IN LUXURY CRUISING

Caudal Trimarans develops and markets high-end long-distance cruising trimarans, the result of 25 years of experience in coastal and offshore sailing.

Our boats are designed to combine the demands of long voyages with comfort for crews from all walks of life.

They combine the seaworthiness of a monohull with the generous comfort of a catamaran.

AN ADVANTAGEOUS STRUCTURE

The trimaran's architecture, with the mast's forces transferred to the central hull, reduces wear and tear on the structure, ensuring a long service life and reduced maintenance.

ALUMINIUM IS A ROBUST MATERIAL

Aluminium ensures safety at sea, weight control and impact resistance. Environmentally friendly and recyclable, it requires no resin and guarantees superior longevity compared to wooden or composite hulls, with preserved resale value.

TECHNIQUES AND COMFORT ON BOARD

Central helm station, efficient deck layout, smooth manoeuvring, uncluttered cockpit and spacious living areas: these are the defining features of the three Caudal models.

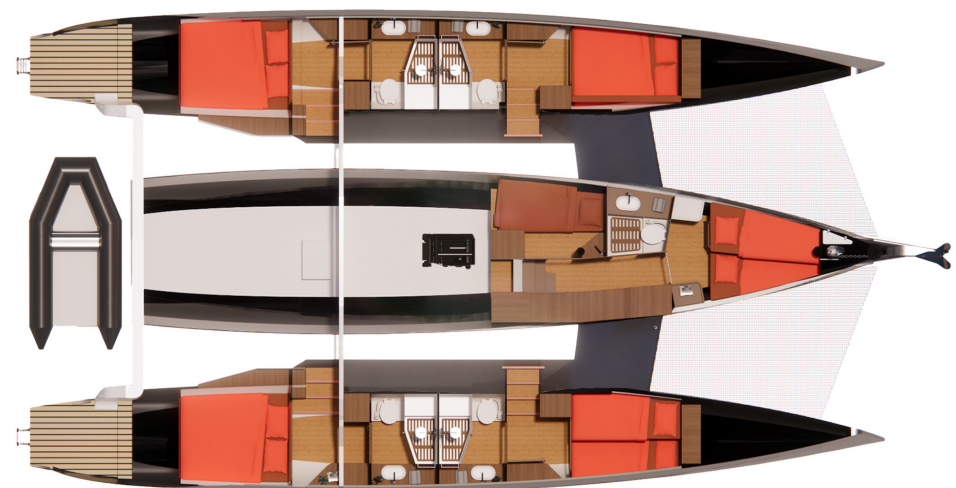

CAUDAL 53'

The Caudal 53' is a trimaran with a sleek, modern silhouette, designed for luxury chartering and shared sailing. Its racy lines and easy handling reflect a design focused on performance and sailing pleasure.

The central helm station offers exceptional visibility of the sails and the horizon, while the cockpit, free of any manoeuvring equipment, is ideal for relaxation and socialising. The deck layout encourages fluid movement between the interior and exterior.

Inside, the Caudal 53' offers several light-filled relaxation areas. The four cabins, each with a private bathroom, guarantee exceptional comfort for guests.

SPECIFICATIONS

Overall length	16.78 m
Waterline length	15.68 m
Overall width	8.79 m
Light displacement	18.2 t
Sail area	161,5 m2
Living area	60 m2
Draught	1.93 m
